Finishing

Weave in ends after blocking. Wet blocking is recommended.

First, soak the finished piece in room temperature water. You may use a mild cleansing liquid if you wish. Gently remove excess water from the piece by rolling in a towel and squeezing gently. Do not wring or twist.

When all excess water has been removed, lay piece out on an absorbent towel. Using blocking wires and pins, open up the points and “scales” of your garment.

Leave in a safe place (free from feline and canine family members) to dry.

Weave in ends.
